## Summary

- Experienced Product Designer skilled in conducting detailed user research, simplifying complex workflows, and delivering measurable improvements that make a real business impact.
- Empathetic communicator who builds rapport easily, communicates clearly, and works effectively across teams. Highly coachable, with years of sporting experience that has shaped a growth mindset I bring into my professional career.
- Collaborative team member known for fostering trust, mentoring peers, and aligning design work with business goals.

## Experience

June 2024 - Present

**Product Designer** → **Budibase** (Low-Code Platform)

- Led UI design across core database features in Budibase's enterprise platform, creating intuitive interfaces that helped the product stand out in the low-code market. Recognised in the no-code community for standout UX, with frequent mentions across forums and competitor roadmaps.
- Ran a paid research study with over 30 users to identify usability issues in the automation builder. Findings influenced roadmap priorities and led to a measurable increase in satisfaction and a reduction in support queries.
- Designed new AI-powered features from concept to prototype, including generative apps and smart workflows, ensuring alignment with user needs and business goals.

June 2021 - July 2024

**UI/UX Designer** → **Dawson Andrews** (Digital Agency)

- Redesigned a B2C homepage using data-driven UX improvements that led to a 90% increase in conversions. This and future design and development work contributed to major new business opportunities for Dawson Andrews.
- Built and maintained a scalable Figma design system, improving developer handoff accuracy to 95% and reducing rework by 20%.
- Analysed over 1,400 user feedback entries to identify key UX issues, resulting in a 2× improvement in experience compared to the previous enterprise-grade B2B product.

August 2019 - August 2020

**Designer** → **Northern Ireland Civil Service** (Public Sector)

- Contributed to digital transformation initiatives by improving accessibility, supporting diversity, and enhancing usability across public sector services.
- Played a key role in a nationwide recruitment campaign and was personally awarded by the governmental head of department for excellence in design work.

Other experience and freelance work available on [LinkedIn](#).
