## Experience

June 2024 - Present

**Product Designer - Budibase (Low-Code Platform)**

- Led a major redesign of Budibase's automation builder, simplifying complex workflows and making troubleshooting faster and more intuitive.
- Designed AI-powered features, including app generation and code generation, to support the company's shift toward intelligent, low-code development.
- Ran targeted user research using Maze, uncovering key usability issues and directly shaping the product roadmap.
- Improved core platform areas like access control, settings, and filtering, making them easier to use for both technical and non-technical users.
- Worked cross-functionally with leadership, engineers, and product owner to align design decisions with real user needs and evolving business goals.

June 2021 - July 2024

**UI/UX Designer - Dawson Andrews (Digital Agency)**

- Spearheaded a comprehensive redesign initiative for a client, resulting in a 200% increase in user satisfaction and a 90% boost in conversions.
- Conducted extensive UX research (1,400+ responses) to uncover user pain points and guide design choices, demonstrating a commitment to evidence-based decision-making.
- Designed and launched new digital products, driving success from idea generation to completion.
- Collaborated effectively with product managers, engineers, and stakeholders throughout the project lifecycle to ensure seamless execution.
