Summary

Product Designer with seven years of experience driving business growth across enterprise, startup, and agency sectors. Known for delivering high-impact interfaces that boost sales and scale operations, while bringing energy and a collaborative spark to team culture.

Experience

Product Designer September 2025 to Present
Perforce P4 Plan and P4 DAM: planning and digital asset management software for games and media.

- I lead design for P4 DAM and P4 Plan, handling enterprise customer data for clients like Electronic Arts, Xbox Game Studios and Meta, and contributing to new customer acquisition.
- I own sections of the design system and develop Claude skills for context building and generative AI workflows, served through an MCP server and a plugin that generates high-quality interfaces.
- I won Best Designed at the 2026 company AI Hackathon for these custom Claude systems.
- I used this AI system to rebuild P4 DAM onboarding around the studio manager persona, delivering a targeted trial that increased sales opportunities and streamlined the sales process.
- I wrote production front-end code and built workflows using Claude Code to bridge a 66% drop in engineering capacity, ultimately increasing feature output by 25%.

Shipping production code | Increasing sales opportunities | Owning P4 DAM

Product Designer July 2024 to July 2025
Budibase Open-source low-code for internal apps, automations and AI agents.

- I owned end-to-end product design for a self-hosted, open-source low-code platform.
- I rebuilt the automations builder based on a 25-user study, eliminating related user experience complaints.
- This design became the foundation for Budibase's later AI product: agents and automations, and was pivotal as the company moved towards becoming an AI-focused startup.

Automations overhaul | Branches, permissions, calculations

Product Designer June 2021 to July 2024
DawsonAndrews Product design agency.

- I created and managed scalable design systems for major enterprise clients, including CityFibre and GSMA.
- I took SportsWork from zero to one across brand and product, launching it into an independent, profitable company.
- Project work I delivered played a key role in helping the agency scale from a small to medium-sized business and hire 10 new employees.
- I mentored multiple designers throughout the agency.
