

Summary

- Product Designer:** Product and interaction design since 2015. I build design systems and ship the products they serve, at [Perforce](#), [Budibase](#) and [DawsonAndrews](#). Mentored at least 10 designers across those companies.
- Shipped output:** At [Perforce](#), feature output was still 25% higher after the front-end team was cut from six to two. At [CityFibre](#), homepage work put 90% more people onto the buying journey. That success helped [DawsonAndrews](#) grow from a small to a medium-sized agency.
- Secure environments:** I was one of the lead designers at the PSNI, and have experience working with secure public sector organisations, and with air-gapped and data-secure clients.

Experience

Product Designer
[Perforce \(Puppet\)](#)

September 2025 - today

P4 Plan and P4 DAM: secure planning and digital asset management software for games and media.

- I own product design for P4 DAM and P4 Plan, used by [Electronic Arts](#), [Pinewood Studios](#), [Xbox Game Studios](#) and [Meta](#). The interfaces hold secure enterprise data. That work has helped sell multiple new customers onto Perforce.
- I own sections of the design system and Claude skills around context building and generative AI workflows, served through an MCP server and a Claude plugin that generates high-quality interfaces. Claude systems I built won Best Designed at the company AI hackathon in 2026.
- I used that system to rebuild P4 DAM onboarding around the studio manager who buys it. Sales got a persona-driven trial, opportunities went up, and they said it made their job a lot easier.
- Front-end capacity was cut from six developers to two. The product still shipped 25% more features per quarter. I ship production front-end with Claude Code.

 Shipping production code

 Increasing sales opportunities

 Owning P4 DAM

Product Designer
[Budibase](#)

July 2024 - July 2025

Open-source low-code for internal apps, automations and AI agents.

- I owned product design for Budibase as a whole. Customers self-host, including in air-gapped and other secure environments, so their data stays on their own infrastructure.
- I rebuilt the automations builder, created new filter systems, and set up key workflows. I ran a paid study with 25 users, changed the design, and support complaints dropped from about ten at a time to none.
- That work became the foundation for Budibase’s later AI product: agents and automations on a platform people already used.

 Automations overhaul

Product Designer
[DawsonAndrews](#)

June 2021 - July 2024

Product design agency.

- I led and created design systems for [CityFibre](#), [GSMA](#), and SportsWork. For SportsWork I took a startup from zero to one: brand, product, and the live site. It is now an independent, profitable startup.
- Lead product designer for [CityFibre](#) (about 2,000 people). Designed the B2B portal and the marketing website. 90% more people clicked to check fibre availability, and portal satisfaction doubled after a 40-person ISP workshop.

 CityFibre rebrand

Skills

Product & UX Design: Product ownership, Interaction design, Design systems, Tokens, Information architecture, Usability testing, Accessibility (WCAG / AA), Systems thinking, First principles, Product sense, High agency, Data-driven UX.

Frontend: Production code, Near-production prototypes, CSS, Tailwind CSS, HTML, Git, Component-driven development.

AI: Cursor, Claude Code, Claude skills, MCP servers, Figma Make, Agentic workflows, Designing for agents, Human-in-the-loop UI, Encoding design systems for AI, Research synthesis, AI-assisted prototyping and implementation.

Tools: Figma, Maze, Jira, Local development environments.

Hobbies

Martial arts since 2007, over 18 years: BJJ purple belt, Japanese Jiu-Jitsu black belt, and Judo green belt. Also Warhammer 30k, the gym, fishkeeping, karting, travel, and dogs, especially fluffy ones.

Education

BDes (Hons) Interaction Design, [Ulster University](#), First Class Honours (2017 to 2021)

Extended Diploma in Interactive Media, [Northern Regional College](#). Distinction*, Distinction*, Distinction (2015 to 2017)
